

DataPorts

Data Platform for the
Connection of Cognitive Ports

NEWSLETTER

DECEMBER - 2021

Dear DataPorts Community, welcome to our second newsletter!
We are delighted to show you the progress of our project and the news
that have occurred during this year. We hope you like it. Please, do not
hesitate to contact us if you want to know more.

What is DataPorts? In our
promotional video you will know
the objectives of our project.

Who participates in DataPorts?
We are 13 partners from 5
different nationalities. Meet us.

We are very grateful to the
European Union for funding our
project. Find here more details.

DataPorts is a Big Data Value
Public-Private Partnership.
What does this mean?

Where can I follow the day to day
of the project? Know where we
inform you about the news.

Do you want to know more
about the project?
Please contact us.

ACTIVITIES AND ACHIEVEMENTS

We would like to tell you
about what has happened
during this second year of
the project. Don't miss our
news and the summary of
the project progress.

During this second year, **five
scientific papers** have been
published. Three of them were
published in international
referenced journals and the other
two were presented in
international conferences.

DataPorts has been
presented in **sixteen events**
by our partners. Due to the
COVID-19 pandemic, these
events were held virtually.

We have finished the second year
of the project, but 2022 will be
the most important year of
DataPorts. Find a **preview** of
what's to come.

This project has received funding from
the European Union's Horizon 2020
research and innovation programme
under grant agreement No 871493
