

DataPorts

Data Platform for the
Connection of Cognitive Ports

NEWSLETTER

JULY - 2022

Dear DataPorts Community, welcome to our third newsletter!
We are delighted to show you the progress of our project and the news that have occurred during the past months. We hope you like it. Please, do not hesitate to contact us if you want to know more.

What is DataPorts? In our promotional video you will know the objectives of our project.

Who participates in DataPorts? We are 13 partners from 5 different nationalities. Meet us.

We are very grateful to the European Union for funding our project. Find here more details.

DataPorts is a Big Data Value Public-Private Partnership. What does this mean?

Where can I follow the day to day of the project? Know where we inform you about the news.

Do you want to know more about the project? Please contact us.

ACTIVITIES AND ACHIEVEMENTS

We would like to tell you about what has happened **so far during the third year** of the project. Don't miss our summary about our news and the project progress.

During these months, **four scientific publications** have been published. One was published as a book chapter and the other three were published in international conferences.

DataPorts has been presented in **five events** by our partners. Due to the COVID-19 pandemic, two of these events were held virtually.

We have entered the final year of the project. Find a **preview** of what's to come in the next months.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 871493
