DataPorts

Data Platform for the Connection of Cognitive Ports

NEWSLETTER

MARCH - 2023

Dear DataPorts Community, welcome to our third newsletter! We are delighted to show you the progress of our project and the news that have occurred during the past months. We hope you like it. Please, do not hesitate to contact us if you want to know more.

What is DataPorts? In our promotional video you will know the objectives of our project.

Who participates in DataPorts? We are 13 partners from 5 different nationalities. Meet us.

We are very grateful to the European Union for funding our project. Find here more details.

DataPorts is a Big Data Value Public-Private Partnership. What does this mean?

Where can I follow the day to day of the project? Know where we inform you about the news.

Do you want to know more about the project? Please contact us.

ACTIVITIES AND ACHIEVEMENTS

NEWS

We would like to tell you about what has happened during the last year of the project. Don't miss our **summary** about our news and the end of the project.

During these months, **three** scientific publications have been published. All three of them were published in international conferences.

RESEARCH

EVENTS

DataPorts has been presented in **nine events** by our partners since the last newsletter.

We had the final event in Valencia's Port Foundation. Find **an overview** of the event and what's to come next.
